

## *Nolina nelsonii*

**common name** Blue Nolina

**origin** Mexico

**nature** Small tree- like species with a thick straight trunk that can reach up to 2 metres tall. Extremely drought tolerant and frost tolerant (down to -12C)

**pot size**

300mm	500mm	200litre
400mm	100litre	500litre

**growth** Up to 2 m

**leaves** Stiff, rigid, blue foliage which is soft to touch.

**soil** Most soil types, good drainage

**requirements** Full sun, little water if in a pot, prune lower leaves to produce a “pineapple” look and also exposes the trunk. Low maintenance. No water other than rainfall if in ground.
